### DETAILED ACTION

This office action is in response to applicants' communication filed on 2/22/05.

Claims 1-4 are pending in this application.

#### ***Claim Rejections - 35 USC § 103***

1. Claims 1-4 are again rejected under 35 U.S.C. 103(a) as being unpatentable over Ogasawara et al, for the reasons of record.

Instant claims are directed to a process to a process of preparing a process for preparing a cyclopentene-l-acetamide, comprising reacting a 3-acyloxy-s-hydroxycyclopentene, with an amide acetal or a ketene amino acetal, at 90-140 degrees Celsius, using an alcohol concentration of less than 3%.

Applicants' arguments were fully considered and were not found convincing. Applicants allege that the reference reaction does not suggest temperature of 90 to 140 degrees Celsius, does not suggest 3% of alcohol and neither the reference suggest unexpected result. At the outset, applicants have not shown unexpected results. With respect to temperature conditions, the same can be worked out under routine experimentation. With respect to the alcohol solvent, the reference expressly teaches use of the same, and again the amount can be worked out under routine experimentation. Thus the difference between the reference and herein claimed process appears to be simply various temperature condition and amount of alcohol. Applicants have not shown as to how particular temperature and amount of alcohol has lead to unexpected results and in the absence of the same, the process is obvious.

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

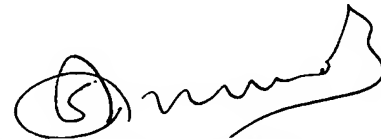

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
